

OLD FASHIONED SKILLS

HISTORY

Think of a skill which children may not be taught today, perhaps something your grandparents were taught in school?

Why don't we learn these any more in class?
Are they still useful? (*Class discussion*)

Can you learn how to do it?

Can you invite someone in to show you?
(Knitting, sewing, woodwork, calligraphy...
making a perfect cup of tea)

Is there a new skill that has replaced this one?
